

I do not want you to water down the Indiana Telephone Privacy Act!
It is wonderful to be able to sit down in the evening and not to
have to get up 5 or 6 times to answer calls from telemarketers!

I do not want to have to revert back to this--so please do not pass anything
that would allow me to start getting more of these calls! I am very happy with
our law and I would like it to stay into effect! Thank you for your
consideration on this matter.
